

## B2B - Website Design Agency

### THE METHOD AND MINDSET

We believe that every great website starts with a dream, a vision of what your online presence could be. With more than a quarter-century of experience developing and implementing marketing strategies, our team knows what it takes to make your website stand out from the competition. We then take those dreams and transform them into impactful websites that not only delight you, but captivate your audience and convey your unique message from the moment it's launched into the world.

We achieve this through a blend of strategies and tactics that channel resources, insights, business goals and marketing expertise, and into your website, enabling potential customers to discover you and appreciate your distinct value. With a wealth of experience across two continents, we are eagerly poised to [begin this journey with you.](#)

### WEB DESIGN THAT CAPTIVATES

We understand that the vision for your organization should be clear and evident in the design of your website. Your website is frequently the first encounter customers have with you and your brand, so its design and aesthetic are critical in establishing the credibility of your business and delivering your message. Whether you have an existing site that requires a revitalized look or you're ready for your very first website, our team will help you dream it, design it and deliver it.

### THE DESIGN MATTERS

The build and layout of your company's website is directly connected to your visitor's experience, whether they're accessing your site on a computer or mobile device. No matter how your site's visitors found you in the first place, whether it was via search engine (Could you say 'an online search?'), from your social media, or a referral from a friend, we want them to stay a while. First impressions matter. A visitor to your website should be quickly engaged and easily able to navigate their way around, on any device. Just like meeting someone in person for the first time, it takes half a second for someone to make a judgment about your brand when they click on your site. If they're confused, overwhelmed or underwhelmed are you sure your site is showcasing your brand in the best possible way? Our team will work with you to make an impression on potential clients while introducing them to your business and services.

### WHAT DOES "CUSTOM" MEAN?

No two brands are alike, so no two websites should be alike- shouldn't yours be one that stands out? From the beginning, we work alongside our clients to create easy-to-navigate, customized layouts highlighting each brand's unique elements. Whether you need something simple to highlight your business's key services or you need a more complex, multifaceted design, it's our goal to make sure your website impacts from the very first click.

There can be dozens of options to consider, and choosing what to include on your website can be confusing and overwhelming. It's our job to help you carve out your priorities and select the elements that will have the strongest impact on your business. Some valuable features you may want to include:

- LIVE CHAT
- VIDEOS
- COST CALCULATOR
- LEAD GEN FORMS

### **OPTIONS. OPTIONS. OPTIONS.**

How does one choose? We are proud to feature an expansive portfolio of one-of-a-kind websites from a wide range of industries to gather ideas from. Each site contains unique design elements and functional features that we've dreamed, designed and delivered to satisfied clients since 2013.
